If it's most beneficial for him to come and do the plan in advance, so that TAGA can show up and roll, then of course.

Adam and Steve - Marc Greenberg called to let us know that Stephen Blaze is available to come in ahead of the TAGA to scope out the area and develop the qasp for the TAGA. Stephen can arrive tomorrow so he can meet with you to discuss the plans they will implement as part of this incident. Let me know if you are in agreement with having Stephen arrive tomorrow in Deer Park to meet with you.
